

*Office Memorandum* • UNITED STATES GOVERNMENT

TO : Chief, Services Division

DATE: November 8, 1949

FROM : Acting Chief, Supply Branch

SUBJECT: Monthly Report for October 1949

25X1A9a

25X1A9a

1. A report pertaining to unrelated items contained in all supply accounts has been prepared and distributed to Mr. [REDACTED], Chief, ~~Procurement and~~ Supply Branch, Special Support Staff, and the Acting Chief, Storage and Issue Section, Supply Branch, for appropriate transfer action. Mr. [REDACTED] agreed on transfer of such items to related supply accounts at a meeting held in his office on 2 November 1949.

2. A complete report pertaining to all inactive items contained in the supply accounts under the jurisdiction of this office has been obtained, and it is contemplated that after necessary coordination has been made, recommendations will be submitted to your office on or about 30 November 1949 relative to disposal or retention of such items.

25X1A6a

3. There remains to be accomplished several matters pertaining to security of the [REDACTED] warehouse as indicated in memorandum forwarded to your office on 2 November 1949. The most important ~~being~~ being the tightening of wire fence and straightening and replacement of barbed wire atop the fence. Every effort will be made to accomplish this requirement as soon as possible. Security has not, at this date, made arrangements with respect to establishing a roving patrol in areas desired by this office which was reported in above mentioned memorandum.

4. Action is being taken to establish a procedure pertaining to the issuance and replenishment of supplies located in supply rooms maintained by Supply Officer, Mr. [REDACTED]. 25X1A9a It is believed that the establishment of such a procedure will provide more adequate supply service to personnel located in Buildings L, K, Q and M.

5. You will note in the monthly report that requisitions received in the Procurement Section, Supply Branch are equal or have increased in quantity in comparison to the number received during past months while this function was being performed under the former Supply Division. There is presently somewhat of a backlog which it is believed will subsequently be cleared up. | ?

6. Corrective action has been taken with respect to indicating on requisitions for replenishment of stock the quantities of items per unit, that is 100 to a box, set, etc. This will assist this office in determining actual quantities to be ordered based on consumption data.

7. Action has been taken to include on requisitions the allotment account number of the appropriate activity for which procurement action is required for items stocked for a specific user. This will eliminate any discrepancies with respect to stock accounts being charged for items procured for this purpose.

8. A written agreement has been reached with respect to storage of specific type items used by GPO and a procedure covering the issuance of such items is presently in effect.

9. Foreign Funds Control Records which were used by OCD have been disposed of as requested by your office. Memorandums pertaining thereto, inclusive of authorization from Treasury Department are on file in this office.

10. A proposed procedure for processing requisitions, purchase orders and maintenance of files in Procurement Section has been prepared and forwarded to your office for approval. | ?
